Website for the Community

Better communication

Best results
Different roles in the CAB

- CAB Coordinator
- Established CAB members
- New CAB members
CAB Coordinator

- Participating on site-specific protocol teams, when applicable
- Advocating for innovative, efficient, and timely clinical trials
- Facilitating information
- Protecting the interests of research participants
- Training and mentoring CAB members
- Ensuring that IMPAACT scientific priorities = Community Research
- Bringing site to the ICAB Leadership Group

Equality of information across the network
Identify Opportunities for Improvement

At the local CAB:

• Many CABs are “leader-dependant”
• It does not take into account individual learning needs

At the ICAB

• We do not know about the work of other CABs, therefore we cannot take advantage on their strengths
• We lose one of our biggest assets: the diversity of cultures and ideas
We can improve!
We need

- To optimize the use of time by not duplicating tasks
- To learn from every member
- To facilitate the work of those who weren’t able to attend the meeting
- To ensure a basic level of knowledge so that all opinions are equally informed
- To preserve acquired knowledge for those who come next
We have?

- Experts on their communities: You
- People with the ability to learn
- People with the ability to teach
- People with access to resources
- People with the desire to share what they’ve learned

Wouldn’t that be wonderful?
In Summary

- Stop under-utilizing human resources: take advantage of the know-how of CAB leaders
- Standardize the CAB study-review process through Q&A templates
- Develop an online course on basic research concepts for CAB
- Optimize an intra-ICAB communication system
What can I do want to have a website?
Thank you very much!
