RE: CLARIFICATION MEMO #2 for IMPAACT P1056: New site and investigator roster for Stage II

TO: Principal Investigators & Study Coordinators at Sites Participating in IMPAACT P1056

FROM: IMPAACT P1056 Protocol Team

The following serves as Clarification Memo (CM) #2 for IMPAACT/PACTG P1056 " A Phase I/II Comparative Pharmacokinetic Study of the Fixed Dose Combination (FDC) of Stavudine (d4T), Lamivudine (3TC) and Nevirapine (NVP) as GPO-VIR® Pediatric Chewable Tablets versus the Individual Liquid Formulations in HIV-infected Children ≥ 6 Months to< 13 Years of Age in Thailand” Version 1.0, IND# 71,844, dated February 3, 2006. Please also refer to Letter of Amendment (LOA)#1, dated February 21, 2006, CM #1, dated April 4, 2006, and LOA#2 dated March 2, 2007.

This memo is being issued per the request of Thai regulatory authorities in response to a review of newly eligible IMPAACT sites, Chonburi and Prapokklao Hospitals that have recently been approved by DAIDS to participate in Stage II. A list of investigators is attached in the following pages, and is considered an administrative addition to the P1056 protocol roster.

This information will be added to the next version of the protocol. Please contact the protocol team at actg.teamp1056@fstrf.org if you have any questions.

This Clarification Memo will be available from the IMPAACT Website (http://impaact.s-3.com). The username is: impaact and the password is: cure (all lower case). Select Protocol Specific Web Page (P1056), and Clarification Memo #2, under Current Protocol Related Documents.

Thank you for your participation in IMPAACT P1056.

The P1056 Protocol Team
